Dear Neighbour,

Pavilion Study Centre – Pupil Referral Unit, Whetstone: Highway Trial Pitting Works

As you are undoubtedly aware, London Borough of Barnet have received consent from the Planning Authority to the two Planning Applications (Advanced Infrastructure & Main Works), made in respect to the above project and we are currently working to clear the critical planning conditions.

As part of this, in conjunction with the Barnet Highways Dept; we plan to shortly undertake 4# small trial excavations within the carriageway of Maryrose Way and its junction with Oakleigh Park North, in order to verify their construction, after which, the roads will be reinstated.

This exercise will commence on Tuesday 1st September - subject to the salient Street-Works licence being put in place and be complete within the week.

The aim of this letter is to provide you both with advanced notice of the proposed Trial Pitting Works and to provide you with my contact details, as I will ultimately be the resident GRAHAM senior manager for the proposed development:

Email: damian.kelly@graham.co.uk
Mobile: 07584 700707

It is our intention to retain good relationships with you, our new neighbours - throughout the course of the project. We will shortly establish a regular newsletter, to keep you informed as regards progress and upcoming works – this will be circulated as a physical letter-drop and will also be made available to the wider community via the School Website.

I look forward to meeting you in the coming months.

Yours faithfully

Damian Kelly
